## Student Access for Improved Learning

**SAIL** (Eastern Florida State College's Accessibility/Disability Services) works to create an accessible and inclusive campus community where students with disabilities have equal opportunity to participate in their educational experience by:

- Coordinating and ensuring reasonable accommodations and services
- Empowering students toward self-advocacy and independence
- Collaborating with students, faculty, and staff to reduce physical, informational, and attitudinal barriers

## Start Here

1. If you are a student with a documented disability and require accommodations, you may start the process by completing a SAIL application and obtaining appropriate medical documentation from your physician and/or appropriate professional. Forms and directions can be found at a SAIL office on your campus or on our webpage at [easternflorida.edu/go/sail](http://easternflorida.edu/go/sail)
2. Make an appointment with a SAIL Access Specialist to deliver your application and medical documentation. Start this process early! We want to make sure you have the support you need in a timely manner.
3. If accommodations are approved, the Access Specialist will schedule a Welcome Aboard meeting to discuss the approved accommodations and answer any questions you may have.
4. If you need very specific services, such as enlarged print or an interpreter, make sure to contact a SAIL office before registration begins so we can start planning for your needs.
5. Remember that accommodations are designed to enable access and remove barriers, but they alone do not ensure success. Be sure to utilize all the resources EFSC has to offer to make sure you reach your academic goals!
