

Brevard Community College 2012 Student Technology Survey

1. What is your current class standing?

		Response Percent	Response Count
Dual-enrolled		8.5%	27
Freshman		31.5%	100
Sophomore		36.0%	114
Unclassified		13.9%	44
Other, please specify:		10.1%	32
		answered question	317
		skipped question	0

2. After graduation from BCC, which of the following are you planning to pursue?

		Response Percent	Response Count
Four-year university or college degree		54.6%	173
Full-time employment		20.5%	65
Undecided		15.5%	49
Other, please specify:		9.5%	30
		answered question	317
		skipped question	0

3. Which of the following technologies do you want to use in your studies at BCC? Please select all that apply.

		Response Percent	Response Count
Wireless Network		79.9%	251
Personal mobile computing device (e.g., laptop, netbook, tablet PC, smartphone)		77.4%	243
E-reader device (e.g., Kindle, Nook, Sony Reader)		29.3%	92
Learning Management System (e.g., Angel, Blackboard, Moodle)		71.7%	225
Digital Content (e.g., online textbooks, downloadable books, or other curricular materials in electronic format)		51.6%	162
Interactive white board		31.8%	100
Student response systems (a.k.a. "clickers" or learning response systems)		18.2%	57
Accessing BCC's network from an off-campus location		54.8%	172
Podcasts		19.4%	61
Recorded class lectures		50.3%	158
Distance learning, which delivers education to students who are not physically in the same location as the teacher and/or students		43.9%	138
Campus computer labs		59.2%	186
Multimedia content streaming		26.8%	84
Social media (Facebook, Twitter, blogs)		27.1%	85
Other, please specify:		3.5%	11

answered question 314

skipped question 3

4. How do you envision using technology at BCC? Please select all that apply.

		Response Percent	Response Count
To complete assignments		95.9%	301
To communicate with professors		88.5%	278
To communicate with classmates		72.3%	227
To prepare for the technology expectations in chosen field		63.1%	198
To research topics of interest		78.7%	247
		answered question	314
		skipped question	3

5. When do you envision using technology at BCC? Please select one.

		Response Percent	Response Count
During every class		43.8%	139
During some classes		41.0%	130
Not in class – only outside of class		14.5%	46
Not at all		0.6%	2
		answered question	317
		skipped question	0

6. Which of the following technology skills will be very important to your success at BCC and /or in the workforce? Please select the three skills you believe will be the most important.

		Response Percent	Response Count
E-mail composition		45.1%	142
Technical writing		48.9%	154
Presentation development		55.2%	174
Audio, video, and/or multimedia content development		31.1%	98
Graphic Development		12.4%	39
Spreadsheet development		31.7%	100
Web site development		18.4%	58
Web content management (e.g., HTML documents, images, and other forms of media)		26.3%	83
Computer programming		25.1%	79
Online news and database research		43.5%	137
Other, please specify:		4.8%	15
		answered question	315
		skipped question	2

7. Please indicate how strongly you agree or disagree with the following statement: My education at BCC is preparing me to successfully use technology in college and/or when I enter the workforce.

		Response Percent	Response Count
Strongly agree		31.7%	100
Agree		43.8%	138
Neutral		17.5%	55
Disagree		5.1%	16
Strongly Disagree		1.9%	6
answered question			315
skipped question			2

8. Please indicate how strongly you agree or disagree with the following statement: Brevard Community College understands how I use or want to use technology as a learning tool.

		Response Percent	Response Count
Strongly agree		24.1%	76
Agree		43.4%	137
Neutral		21.8%	69
Disagree		8.2%	26
Strongly disagree		2.5%	8
answered question			316
skipped question			1

9. Please indicate how strongly you agree or disagree with the following statement: Brevard Community College is meeting my technology needs.

		Response Percent	Response Count
Strongly agree		22.3%	70
Agree		46.2%	145
Neutral		21.7%	68
Disagree		8.0%	25
Strongly disagree		1.9%	6
answered question			314
skipped question			3

10. How important is technology to your ability to study or work on class assignments?

		Response Percent	Response Count
Very important		75.4%	236
Important		18.5%	58
Somewhat important		4.2%	13
Not important		1.9%	6
answered question			313
skipped question			4

11. Where do you use technology to study or work on class assignments? Please select all that apply.

		Response Percent	Response Count
At home		97.2%	307
At a friend or family member's home		28.2%	89
During class		46.8%	148
In a campus common area (e.g., open computer lab, cafeteria, learning lab)		57.6%	182
BCC library		56.6%	179
Public library		19.0%	60
Other, please specify		10.4%	33
answered question			316
skipped question			1

12. Which of these statements apply to your experience with technology at Brevard Community College? Please specify all that apply.

		Response Percent	Response Count
Students are encouraged to use technology in all their classes.		45.4%	139
Students can use their own technology (e.g., laptops, tablet PCs, smartphones).		61.1%	187
Technology is used in nearly every class.		48.7%	149
Teachers regularly use technology to teach.		61.1%	187
Teachers regularly assign class work and/or homework that require the use of technology.		72.9%	223
Students have the opportunity to learn new technology applications.		43.1%	132
answered question			306
skipped question			11

13. To what extent is technology integrated into your classroom? Please rate on a scale of one to five, where one is not at all integrated and five is fully integrated.

	1-Not at all integrated	2	3	4	5-Fully integrated	Rating Average	Rating Count
	1.6% (5)	12.2% (38)	27.9% (87)	30.8% (96)	27.6% (86)	3.71	312
answered question							312
skipped question							5

14. What is the biggest challenge to classroom technology at Brevard Community College?

		Response Percent	Response Count
My teachers do not know how to use it.		15.2%	46
My teachers won't use it.		6.3%	19
BCC does not have enough technology to adequately serve students.		12.5%	38
BCC classrooms are not outfitted with technology.		11.2%	34
Technology isn't useful to my classes.		7.3%	22
Technology is outdated.		5.0%	15
Technology is fully integrated at BCC – there are no obstacles.		42.6%	129
		answered question	303
		skipped question	14

15. How would having technology-rich classroom/learning environment change the way you learn?

	Response Count
	195
answered question	195
skipped question	122

16. Which of the following technologies/Internet tools do you use in conjunction with your education at BCC (e.g., to study, while in class, to work on assignments)? Please select all that apply.

		Response Percent	Response Count
Laptop computer		81.9%	254
Tablet computer		16.5%	51
Netbook computer		6.1%	19
Desktop computer		56.1%	174
iPod/MP3 player		12.9%	40
E-reader device (e.g., Kindle, Nook, Sony Reader)		11.9%	37
Digital video recorder (e.g., Flip)		5.5%	17
Smartphone (e.g., iPhone, Blackberry, Droid)		37.7%	117
Videoconferencing		2.9%	9
Web conferencing		3.2%	10
Online text or video chat		20.3%	63
Learning Management System (e.g., Angel, Blackboard, Moodle)		67.1%	208
Digital content (e.g., online textbooks, downloadable books or other curricular materials in electronic form)		36.8%	114
Interactive white board		9.0%	28
Student response systems (a.k.a. "clickers" or learning response systems)		7.4%	23
Open source applications (e.g., Google Apps, OpenOffice)		29.7%	92
Social networking sites (e.g., Facebook, Twitter, LinkedIn)		15.2%	47

Blogs		5.5%	17
Wikis		15.2%	47
Podcasts/vodcasts		7.1%	22
Other, please specify		2.9%	9
answered question			310
skipped question			7

17. Which of the following technologies/Internet tools do you use for personal use (e.g., to connect with friends/family, or for hobbies, extracurricular activities, relaxation)? Please select all that apply.

		Response Percent	Response Count
Laptop computer		85.2%	265
Tablet computer		19.9%	62
Netbook computer		7.1%	22
Desktop computer		56.3%	175
iPod/MP3 player		31.8%	99
E-reader device (e.g., Kindle, Nook, Sony Reader)		21.9%	68
Digital video recorder (e.g., Flip)		12.2%	38
Smartphone (e.g., iPhone, Blackberry, Droid)		56.9%	177
Videoconferencing		14.1%	44
Web conferencing		7.1%	22
Online text or video chat		39.5%	123
Learning Management System (e.g., Angel, Blackboard, Moodle)		12.9%	40
Digital content (e.g., online textbooks, downloadable books or other curricular materials in electronic form)		15.4%	48
Interactive white board		2.6%	8
Student response systems (a.k.a. "clickers" or learning response systems)		1.6%	5
Open source applications (e.g., Google Apps, OpenOffice)		26.4%	82

Other, please specify		6.7%	19
answered question			284
skipped question			33

19. Social media uses mobile and Web-based communications platforms to enable real-time dialogue and content-sharing. Examples of social media tools include the following: Facebook, Twitter, blogs, or wikis. How often do you use social media to study or work on class assignments?

		Response Percent	Response Count
Everyday		12.2%	38
Several times a week		12.8%	40
Several times a month		7.4%	23
Rarely		26.0%	81
Never		41.7%	130
answered question			312
skipped question			5

20. How often do you use technology (e.g., computer, software, Internet, social media) to prepare for your classes (e.g., completing homework, special projects, studying)?

		Response Percent	Response Count
Everyday		60.8%	188
Several times a week		30.1%	93
Several times a month		5.5%	17
Rarely		1.9%	6
Never		1.6%	5
answered question			309
skipped question			8

21. Outside of classes, how do you communicate with your teachers? Please select your top three methods of communications.

		Response Percent	Response Count
In-person		43.0%	135
Phone		19.7%	62
E-mail		88.5%	278
Instant message		6.1%	19
Facebook		2.2%	7
Twitter		0.6%	2
Learning Management System (e.g., Angel, Blackboard, Moodle)		61.8%	194
I do not communicate with my teachers outside of class		5.7%	18
Other, please specify		1.3%	4
		answered question	314
		skipped question	3

22. How accessible are Brevard Community College's computer labs for studying or working on assignments?

		Response Percent	Response Count
BCC does not provide any computer access to students		1.3%	4
Always an open seat		44.0%	136
Usually available; short wait		29.8%	92
Usually a wait		1.6%	5
Very hard to get a seat		1.9%	6
Do not want or do not need to use the computer labs at BCC		21.4%	66
		answered question	309
		skipped question	8

23. What recommendations would you give to your teachers to better use technology in the classroom at Brevard Community College?

27	Anywhere That I can be alone and not seen/disturbed	Nov 19, 2012 7:55 PM

Page 2, Q11. Where do you use technology to study or work on class assignments? Please select all that apply.

28	work	Nov 19, 2012 4:59 PM
29	at work	Nov 19, 2012 4:38 PM
30	while travelling	Nov 19, 2012 3:49 PM
31	any wifi location	Nov 19, 2012 11:53 AM
32	In microcomputer class	Nov 19, 2012 11:48 AM
33	local coffee shop	Nov 19, 2012 9:36 AM

Page 2, Q15. How would having technology-rich classroom/learning environment change the way you learn?

1	prefer not to answer	Feb 11, 2013 9:59 AM
2	The equipment and software needed to learn and process all the requirements for the classes would be available to everyone. But training and directions for use of the software are extremely weak.	Dec 23, 2012 2:15 PM
3	ability to work at your own pace	Dec 18, 2012 6:28 PM
4	it would not	Dec 16, 2012 11:39 AM
5	It would give me more options to accomplish assignments and to communicate with others.	Dec 16, 2012 9:26 AM
6	By forcing me to learn things on the computer that I am scared to try on my own.	Dec 14, 2012 5:42 PM
7	They make things easier to comprehend.	Dec 13, 2012 7:24 PM
8	I only take on-line courses so some of the answers do not apply. The on-line technology is very good/ but would like to see faster responses to e-mails. Perhaps more aids for the teachers with large amounts of students.	Dec 13, 2012 2:50 PM
9	it will teach me more things	Dec 13, 2012 5:29 AM
10	Technology is the way of the future. Any technology in the classroom would be helpful.	Dec 13, 2012 3:12 AM
11	It would provide more resources.	Dec 12, 2012 6:19 PM
12	It would better prepare students for a technology-driven world.	Dec 12, 2012 6:17 PM
13	It would make everything more hands-on which would help me personally learn more.	Dec 12, 2012 4:53 PM
14	I am able to learn more, and have more efficient ways of doing my homework/projects.	Dec 12, 2012 2:11 PM
15	It would make the classes easier to comprehend.	Dec 12, 2012 1:17 PM
16	it will keep me uptodate and allows me to learn more effectively	Dec 12, 2012 8:31 AM
17	Less paper. More dedication to sitting down to study,	Dec 11, 2012 5:49 PM
18	I think it would help me to use technology more and understand it.	Dec 11, 2012 5:04 PM
19	Easier to research topics in class instead of waiting until out of class.	Dec 11, 2012 4:22 PM
20	i think it is a great advancement but at what cost to the students?	Dec 11, 2012 2:51 PM
21	myitlab sucks its full of errors and they brought my grade down!	Dec 11, 2012 11:03 AM
22	It's would provide a more hands-on way of learning, and that's what helps me to learn the most.	Dec 11, 2012 9:31 AM
23	Well most students are glued into the web and that is the way we are learning,	Dec 10, 2012 5:09 PM

Page 2, Q15. How would having technology-rich classroom/learning environment change the way you learn?

	so learning through the web in the classroom would increase participation and grades in the classes.	
24	improve learning	Dec 10, 2012 2:24 PM
25	I honestly have no idea.	Dec 10, 2012 1:03 PM
26	Increase my technology skills.	Dec 10, 2012 12:01 PM
27	Learning by using technology could be difficult because there are more distractions.	Dec 10, 2012 11:06 AM
28	It would make researching easier. However, I think sometimes it would pose as a distraction(facebook,other interests, ect.).	Dec 10, 2012 7:30 AM
29	everyone would have a hands on experience at the same time and no one is left out.	Dec 10, 2012 7:10 AM
30	It amy help those who want the help, but it also I think would be a distraction for others to be on facebook when they should be learning. So I would say in order for this to work, as beneficial as this would be, there has to be a way to monitor this sort of thing or be able to deal with the problem as it arrises.	Dec 10, 2012 6:53 AM
31	I think the class room needs little technology so it would do little for me. Most classes just need the basics, which we use.	Dec 9, 2012 10:30 PM
32	We would rely less on the teacher and more on technology.	Dec 9, 2012 3:28 PM
33	allow me todo more remotely	Dec 8, 2012 7:31 PM
34	It would better help me understand the value of technology in my field of expertise, and quickly adapt to the constant technological changes in the work environment.	Dec 7, 2012 11:09 PM
35	WiFi and internet access is often VERY slow on PB campus. Much faster at public library and at home. Some computers are also very outdated on PB campus.	Dec 7, 2012 1:34 PM
36	Instructors can receive material needed to get the message across to the students. Every one learns differently.	Dec 6, 2012 9:43 PM
37	They would allow more access to more information.	Dec 6, 2012 3:04 PM
38	It gives me much more flexibility as to when and where I can work on and finish assignments, take quizzes, do research, communicate with professors and fellow students, and integrate real world experiences with class assignments.	Dec 6, 2012 12:34 PM
39	I already have it.	Dec 6, 2012 8:33 AM
40	I think interactive online learning would be best. Just using the computer to read is no better than a book. You could do a LOT more to make learning online easier, and much more interactive. (have multiple choice questions, etc, IN the text. (Test as you go so you know instantly if you "got it".)	Dec 6, 2012 8:01 AM

Page 2, Q15. How would having technology-rich classroom/learning environment change the way you learn?

41	I am not sure it would change how I learn, rather, I feel it would change the amount of information available.	Dec 6, 2012 7:04 AM
42	I don't have enough experience to envision the possibilities.	Dec 5, 2012 2:12 PM
43	The retrieval of information is much easier with the use of technology. The possibility to have a teacher assign something that isn't strictly spelled out in the book and let the students all do research independent of the single book for the class all at once in the classroom opens up so many possibilities.	Dec 5, 2012 9:41 AM
44	1. Interactive white board for online classes, coupled with audio/voice technology, would mean that instructors could lecture live with students. Students could ask questions (other students would gain from hearing questions/answers they may not have thought of. 2. Video lectures/podcasts (especially for math classes) would mean that students could watch lectures from home, then come to class to work problems they need help with. This would make class time so much more beneficial!	Dec 4, 2012 7:47 PM
45	Hands on is key	Dec 4, 2012 11:00 AM
46	So far it has worked out very well, I get a lot more out of lectures with the technologies used then I would without them.	Dec 4, 2012 8:46 AM
47	assist in learning, having more time for hands on trainging during scheduled classes	Dec 4, 2012 4:02 AM
48	Technology makes information more accessible, thus allowing us to share more ideas quickly. It also allows us to be more green in our efforts. With e-books, and even the ability to take notes via a tablet we decrease the amount of paper needed to sustain us through our college career, thus decreasing our carbon footprint.	Dec 3, 2012 7:08 PM
49	accessibility to information	Dec 3, 2012 6:03 PM
50	It is positive in almost every way, but sometimes I felt distanced and disconnected from the instructor because of dependence on technology (e-brevard classes).	Dec 3, 2012 3:05 PM
51	It would give me more ways to learn a concept rather than just one.	Dec 3, 2012 7:39 AM
52	It would allow us to utilize the proper approach to systematic problems in our customer work. It would also prepare the students for real life encounters with lesser technology to try and replicate the correct techniques even though they do not have the advanced equipment.	Dec 2, 2012 10:48 AM
53	When taking an online class, podcasts and chatroom type situations would help make the class more communicable and interactive, enhancing the learning experience and erasing the disadvantage of not being able to physically interact and discuss with your class/professor.	Dec 2, 2012 7:02 AM
54	Technology-rich classroom/learning environment gives me the opportunity to be involved in real world settings. Businesses are technology-rich everywhere I go so this experience will enable me to be prepared for what it's like in the	Dec 1, 2012 9:41 AM

Page 2, Q15. How would having technology-rich classroom/learning environment change the way you learn?

	workplace.	
55	Yes it enhances the way I learn	Dec 1, 2012 8:15 AM
56	It would help reduce the amount of "paper" assignments for professors to grade and encourage students to complete assignments in a timely manner because, well, everyone (students) enjoy technology.	Dec 1, 2012 8:07 AM
57	it would make things easier for both the students and teachers, because everything would be accessible quicker and easier.	Dec 1, 2012 7:42 AM
58	It would help make me more involved and learn different techniques	Dec 1, 2012 7:15 AM
59	I do well with it.	Dec 1, 2012 4:18 AM
60	Its 2012... Everything is technology based. Technology is something every single person uses in one way or another, and to integrate that into our classes just makes sense. It would make everything much more streamlined.	Dec 1, 2012 2:14 AM
61	makes it easier	Nov 30, 2012 7:06 PM
62	Ease of visual explanation, hands on experience	Nov 30, 2012 5:17 PM
63	make it easier as well as help provide experience	Nov 30, 2012 1:38 PM
64	independence	Nov 30, 2012 6:59 AM
65	Hopefully make it more interesting and the materials readily available	Nov 30, 2012 1:22 AM
66	I feel that it would increase my ability to use the programs required by BCC for my classes in class or at home.	Nov 29, 2012 5:05 PM
67	Since I'm a tech student it could provide more hands on experience.	Nov 29, 2012 4:39 PM
68	It makes the teacher's work easier since it's very easy to submit things.	Nov 29, 2012 11:34 AM
69	It wouldn't do much. I would end up not participating on my end and simply listening to the lecture like a normal person or finding "in class assignments" discouraging me from attending class as I could just do that noise at home in a lot of cases.	Nov 28, 2012 10:46 PM
70	Having more information available enriches the learning experience.	Nov 28, 2012 1:06 PM
71	It would be easier	Nov 28, 2012 12:17 PM
72	Currently utilizing Angel for on-line classes which is working well and providing excellent learning technology along with some on-line video course training. Almost all of my learning/studying is performed independently - at home - on my own - from actual textbooks (CPAS degree).	Nov 28, 2012 11:51 AM
73	It would be nice if all the teachers would have to take a class on the Angel Learning System. If the students have to then instructors should also.	Nov 28, 2012 9:37 AM
74	Well for starters it would be nice to have wireless internet access for my laptop in	Nov 28, 2012 5:47 AM

Page 2, Q15. How would having technology-rich classroom/learning environment change the way you learn?

all areas of the school.

75	I am taking only eclasses right now so I am not fully informed as to the nature of technology in the classroom setting. However, I am the sort of person that would thrive well in a tech-rich classroom environment	Nov 27, 2012 8:37 PM
76	I would be able to access materials that would help understand lectures but it's difficult because the WiFi dose not work the majority of the time.	Nov 27, 2012 8:23 PM
77	As far as general classes go, I do not see technology making much difference. In a class for a specific field, or technologically advanced lessons, I can see it making a huge difference.	Nov 27, 2012 8:11 PM
78	Of course it helps aid in the technological advancements within society and associate it to everyday living.	Nov 27, 2012 6:05 PM
79	All my classes are computer related, so I have technology present.	Nov 27, 2012 3:01 PM
80	It would benefit students who's career paths deal with computer and technology.	Nov 27, 2012 1:05 PM
81	.	Nov 27, 2012 12:38 PM
82	I would believe it would enhance the learning experience.	Nov 27, 2012 11:53 AM
83	?	Nov 27, 2012 11:03 AM
84	In answer to the above question (14), since this wasn't a choice, is that the biggest challenge in my classroom is that STUDENTS don't know how to use it and then the teachers end up spending their time teaching them instead of content for the curriculum.	Nov 27, 2012 10:27 AM
85	I am a visual learner and technology is a big tool to my learning experience.	Nov 27, 2012 10:14 AM
86	More use of ebooks would make my texts easier to use and CHEAPER. Better wifi coverage available easier to students would also help.	Nov 27, 2012 9:58 AM
87	More resources to gain more knowledge about the topic would be at hand much more readily than without	Nov 27, 2012 9:37 AM
88	In some cases, viewing examples related to lessons are easily viewed from the internet onto the overhead. I am a visual learner so it helps tremendously. It's much more enjoyable to see and hear a lesson, than to just hear a lecture.	Nov 27, 2012 8:14 AM
89	I am currently only able to take online classes. I can only access parts of my lessons because they require flash players which are not compatible with my phone or ipad.	Nov 26, 2012 9:30 PM
90	A technology rich classroom would allow me more access to the material I need to study for tests and assignments even on weekends where the amount of support available to students is very critically limited. It is especially critical to difficult classes which require large amounts of study time outside of class like math and science classes. Additionally more technology integration with digital content would allow me to quickly find and review things which I don't understand and go over it until I do. Free video content on youtube such as Khan	Nov 26, 2012 7:41 PM

Page 2, Q15. How would having technology-rich classroom/learning environment change the way you learn?

Academy and MIT Open Courseware and other resources available on the web help fill the gap not currently met by BCC. Subscription services such as MyChemLab, and MathXL while being high cost alternatives to video content are typically helpful in providing this off hours instruction, though their implantation varies widely by instructor, with some instructors using them heavily and others making no use out of them at all.

91	It would make it easier to do research for my classes.	Nov 26, 2012 3:29 PM
92	It' s more interactive between student-teacher, or student-student..	Nov 26, 2012 2:41 PM
93	working individually with technology, i can work my own pace and own way, and have a better understanding of things.	Nov 26, 2012 1:22 PM
94	Makes it simpiler to find the information that you need to do your work. I don't have to go somewhere else to get info.	Nov 26, 2012 12:40 PM
95	i would become more edept at using technology	Nov 26, 2012 11:57 AM
96	It helps will better visually seeing what your trying to learn.	Nov 26, 2012 10:27 AM
97	It would give me all the necessary tools and information I would need and allow me to further my knowledge on my own terms.	Nov 26, 2012 10:24 AM
98	none	Nov 26, 2012 9:01 AM
99	I don't know.	Nov 26, 2012 4:59 AM
100	help to learn at a faster pace	Nov 25, 2012 5:31 PM
101	It would not change the way I learn just how I go about learning. Duh.	Nov 25, 2012 1:26 PM
102	no comment	Nov 25, 2012 6:56 AM
103	Being a visual learner, I believe it would make it easier to grasp concepts by seeing them in various lights using different technological methods.	Nov 24, 2012 8:43 PM
104	I don't think it would change the way I learn, it might make it easier to find materials.	Nov 24, 2012 7:16 PM
105	keeps you learning as technology is always changing	Nov 24, 2012 7:06 PM
106	It would provide a more interactive and broader learning envioronment.	Nov 24, 2012 4:22 PM
107	I already use technology to learn. BCC is doing a good job of integrating technology in their classroom environments. Kudos.	Nov 24, 2012 11:21 AM
108	Not at all certain classes require it and some do not.	Nov 24, 2012 6:14 AM
109	I like the interactive teaching and technology together. Lecture and then practice using the technology.	Nov 23, 2012 11:55 AM
110	I can do it at home also and I don't just have to be in the classroom to talk with a or professor learn the material.	Nov 23, 2012 8:29 AM

Page 2, Q15. How would having technology-rich classroom/learning environment change the way you learn?

111	would be helpful	Nov 23, 2012 4:43 AM
112	To be used with the mix of teachers being more interactive with the students and having students be able to allow students time ask questions at intervals during class time.	Nov 22, 2012 5:47 PM
113	Makes it easier for the student to learn.	Nov 21, 2012 11:57 PM
114	Technology diminishes my learning and I would prefer to be without it.	Nov 21, 2012 11:48 AM
115	Technology-rich classrooms would be more up to date. They would also be more efficient and allow the students to communicate better with each other and instructors. They would also prepare us better for universities and the work force.	Nov 21, 2012 9:15 AM
116	n/a	Nov 21, 2012 8:01 AM
117	I am taking online classes, so technology-rich learning is how I learn.	Nov 21, 2012 6:35 AM
118	Our world is turning to technology more and more. It has become commonplace to use technology in everyday tasks and most importantly it is expected in the workplace. Having a technology-rich classroom/learning environment would mean students are fully prepared for the workforce.	Nov 21, 2012 4:03 AM
119	Maybe it would reduce the high cost of books.	Nov 21, 2012 1:46 AM
120	i wouldnt change anything	Nov 21, 2012 12:28 AM
121	sucks	Nov 20, 2012 6:13 PM
122	Most classrooms for computer classes already are technology-rich, a few things could be improved though. One way would be more commonly used programs on more computers (for example: Adobe Photoshop and Illustrator, Microsoft Visual Studio 2010, and HTML editor that follows instructors rules: Kompozer, HTML Kit-292, Notepad++, etc. Most of these I require for work or personal use, mainly work and they are not readily available and it makes me require a laptop or other means of using the program.	Nov 20, 2012 3:30 PM
123	It would provide for a more hands-on approach to learning.	Nov 20, 2012 3:16 PM
124	It would better prepare me for full-time employment, allow me to gain experience on a variey of different technological systems. I want to learn how to use some of the technologies in the classroom rather than on the job site.	Nov 20, 2012 2:22 PM
125	All the information needed in class is right at my fingertips	Nov 20, 2012 2:04 PM
126	I am not a huge technology-type person. Computers are nice, but human teaching is better. It is nice to have a computer based book or program to implement and practice what's learned in class.	Nov 20, 2012 1:40 PM
127	It will help be a hands on student instead of visual...	Nov 20, 2012 1:04 PM
128	The wifi isn't easy to set up.	Nov 20, 2012 12:45 PM
129	Access to more resources and learning how to use the different technologies.	Nov 20, 2012 12:36 PM

Page 2, Q15. How would having technology-rich classroom/learning environment change the way you learn?

130	Nothing would change for me I could still go to the library or work at home on my computer.	Nov 20, 2012 11:26 AM
131	It makes things quicker and easier.	Nov 20, 2012 10:40 AM
132	In a world that uses technology every minute of the day both in work and in play, it is very important for students and teachers to know how to use modern technology.	Nov 20, 2012 10:38 AM
133	I am a visual learner who is very hands on. If people are talking about something and describing it, it helps me to see a picture of it at the same time.	Nov 20, 2012 10:24 AM
134	being up to date with technology will help prepare and give the students a feel for what could be required for their work	Nov 20, 2012 10:14 AM
135	It would make me a more confident student knowing that when I apply for employment I will know as much as other candidates (from Full Sail, Valencia, UCF, for example). I don't have that confidence right now that what I am learning at B.C.C. will make me a viable candidate compared to what they are learning at those colleges.	Nov 20, 2012 9:07 AM
136	to be able to stream classes live would be such a great benefit to online students.	Nov 20, 2012 8:42 AM
137	There would be less immediate interaction with the instructors as well as other students and their interactions with the instructor.	Nov 20, 2012 8:01 AM
138	It would prepare me for the real world environment I plan to be in when I graduate and pursue a career in my intended field.	Nov 20, 2012 7:57 AM
139	Techology-based classes allow me to participate in classes without conflict to my work schedule (as is often the case with in-person classes)	Nov 20, 2012 7:47 AM
140	It will help out a lot	Nov 20, 2012 7:36 AM
141	It would help us be job ready and not need further training or education.	Nov 20, 2012 7:36 AM
142	It would make things a lot easier if we had computers in classrooms and keep the libraries free of classes so students who are not in class can use them.	Nov 20, 2012 7:34 AM
143	Bring additional resources to the classroom, additional insight into problems or views into how others have seen and dealt with technological issues	Nov 20, 2012 7:04 AM
144	Helps make classes more interesting.	Nov 20, 2012 6:52 AM
145	A technology-rich classroom would probably make me become accustomed to using technology, and perhaps dependent on it. On the other hand, it would be helpful to learn how to use technology that is really used in the workforce.	Nov 20, 2012 6:02 AM
146	N/A	Nov 20, 2012 12:29 AM
147	I can do my homework in class, look @ what the teacher is lecturing about, etc..	Nov 19, 2012 9:09 PM
148	Technology should never replace the human factor. I don't like and will never like	Nov 19, 2012 8:41 PM

Page 2, Q15. How would having technology-rich classroom/learning environment change the way you learn?

classes that are online or partly online. Outside of computer classes I don't think technology belongs in the classroom.

149	It would make information more accessible and easy to obtain.	Nov 19, 2012 8:25 PM
150	It's making a working student be able to easily take classes and continue to work.	Nov 19, 2012 8:12 PM
151	It depends on the class. If you would like me to elaborate then email me at jbeaubrun22@hotmail.com	Nov 19, 2012 7:55 PM
152	It would allow me to learn virtually anywhere.	Nov 19, 2012 7:49 PM
153	This would make it more interactive for everyone.	Nov 19, 2012 7:40 PM
154	Technology in class room make it easy to learn and help you research thing a lot easy.	Nov 19, 2012 6:58 PM
155	I would learn new techniques on how to use technology for my class.	Nov 19, 2012 6:56 PM
156	It would be more interesting, as long as the teachers don't show videos all of the time. I like having technology as a reference tool, but not as the standard teaching tool.	Nov 19, 2012 6:48 PM
157	It helped me find a specific way to research certain topics.	Nov 19, 2012 6:19 PM
158	It would give students other opportunities to be able to learn.	Nov 19, 2012 5:55 PM
159	Easier to take and see notes.	Nov 19, 2012 5:53 PM
160	It would help me into learning the material better	Nov 19, 2012 5:52 PM
161	It would not fully change the way I learn.	Nov 19, 2012 5:44 PM
162	"clickers" are an interesting interactive way to compete against other class members. If powerpoint presentations are included in technology then those are cool as well.	Nov 19, 2012 5:36 PM
163	It allows for me to learn new things and makes learning convenient and easy. I can do schoolwork anywhere, not just at school.	Nov 19, 2012 4:45 PM
164	It actually compels the students to actively participate in the class and homework assignments.	Nov 19, 2012 4:38 PM
165	drastically! technology is the way of the world now!	Nov 19, 2012 4:29 PM
166	I could type my information that the teacher's giving instead of writing everything down since they really don't have time to wait for people to write everything down - they just say it's in your book deal.	Nov 19, 2012 4:17 PM
167	By improving the overall quality of the educational experience, as well as simulating the real-world experience I will be transitioning into after achieving my 4-year degree.	Nov 19, 2012 4:14 PM

Page 2, Q15. How would having technology-rich classroom/learning environment change the way you learn?

168	I use it everydsy, it should be seamless	Nov 19, 2012 3:49 PM
169	It woould allow the student to properly prepared for the rigors of the outside world!	Nov 19, 2012 3:29 PM
170	Well for me, I took an online class and learned how to use attachments, discussion boards, the angel system and dropboxes	Nov 19, 2012 1:58 PM
171	Much easier to see what the teacher is talking about .	Nov 19, 2012 1:55 PM
172	I think the amount of technology used in my education at BCC is the right amount. Having more technology wouldn't effect me because of the already technology-rich learning environment.	Nov 19, 2012 1:38 PM
173	It would allow myself and others to be able to get use to the idea of technology in our specific fields	Nov 19, 2012 1:15 PM
174	Using online textbooks would help with the aggravation of purchasing expensive paper texts.	Nov 19, 2012 1:08 PM
175	I think it would make a drastic change because students would be able to look up things they may be uncertain of and they can get more into detail on it...as well as with assignments	Nov 19, 2012 12:15 PM
176	It would not change much.	Nov 19, 2012 12:13 PM
177	More resources to teach equals better learning	Nov 19, 2012 11:57 AM
178	access to multiple sources for assignments, and real time exercise	Nov 19, 2012 11:53 AM
179	It has been beneficial to me in the classroom when my teachers effectively used multi-media--e.g youtube, dvd, powerpoint, etc.--in their lectures. I prefer a technological-mixed-with-traditional style of learning. I really do want a physical book, with the majority of my assignments in the real and not virtual world due to my shortage of private computer usage at home.	Nov 19, 2012 11:48 AM
180	It would make it easier.	Nov 19, 2012 11:47 AM
181	by allowing me instantaneous access to any and all information.	Nov 19, 2012 11:44 AM
182	It would make understanding concepts much easier. It would not feel weird to be one of the only students using a laptop/tablet.	Nov 19, 2012 11:17 AM
183	it helps the students and me out perfectly.	Nov 19, 2012 11:06 AM
184	It might hurt they way I learn because my written notes are better for me to study off of than typed notes.	Nov 19, 2012 10:54 AM
185	It would give the professors more options, and could expand on their capacity to teach in the time allotted.	Nov 19, 2012 10:37 AM
186	I would be able to have more sources when researching and presenting a project.	Nov 19, 2012 10:25 AM

Page 2, Q15. How would having technology-rich classroom/learning environment change the way you learn?

187	I only take online classes so in-class learning does not apply to me	Nov 19, 2012 10:21 AM
188	It's would make it easier because you can get faster results and have more chances to get things right.	Nov 19, 2012 10:06 AM
189	The only classes that I use computer technology is Prep Writing 2 and Prep Reading 2 for now. New semester I will be starting Medical Keyboarding in Building 5 in the lab and I am looking forward to it and also in Communication 1 class in the morning.	Nov 19, 2012 10:01 AM
190	make it easier to learn and to find information	Nov 19, 2012 9:56 AM
191	More accessible.	Nov 19, 2012 9:36 AM
192	Any course work that incorporates the use of technology into the learning process provides a dual benefit to students. Students gain subject knowledge and enhance technology skills simultaneously.	Nov 19, 2012 9:36 AM
193	Currently attending the Cocoa Campus, there is no lab so I feel that students miss out on the hands on part of learning technology	Nov 19, 2012 9:10 AM
194	By giving access to supplemental material either online, or scanned and submitted by teacher, right where it's most relevant. (in angel)	Nov 19, 2012 9:04 AM
195	Make it easier	Nov 19, 2012 9:01 AM

Page 2, Q16. Which of the following technologies/Internet tools do you use in conjunction with your education at BCC (e.g., to study, while in class, to work on assignments)? Please select all that apply.

1	youtube videos from www.khanacademy.org	Dec 13, 2012 2:50 PM
2	tech sites	Nov 27, 2012 3:01 PM
3	Campus library online research resources.	Nov 24, 2012 11:21 AM
4	Search Engines	Nov 20, 2012 3:30 PM
5	Knowledgeable websites	Nov 20, 2012 10:24 AM

9	video chat with instructor - or distance learning via live video	Nov 27, 2012 3:01 PM
10	Not sure about this. Currently have/use what I need.	Nov 27, 2012 11:53 AM
11	I have what I need of for the use.	Nov 22, 2012 5:47 PM
12	PART OF FULL SAIL'S CURRICULUM INCLUDES PROVIDING THEIR STUDENTS WITH LAPTOPS. OTHER COLLEGES HAVE DONE THIS FOR YEARS. IT'S INCLUDED IN THE TUITION, I BELIEVE. COLLEGES GET PACKAGE DEALS FROM DELL AND MICROSOFT, B.C.C. SHOULD CUT A DEAL TO PROVIDE LAPTOPS FOR STUDENTS; PARTICULARLY THOSE IN THE TECHNOLOGIES PROGRAMS. THERE YOU GO: A FREE CONSULTATION FROM A PROFESSIONAL THAT YOU DIDN'T HAVE TO PAY FOR.	Nov 20, 2012 9:07 AM
13	live streaming of classrooms	Nov 20, 2012 8:42 AM
14	none	Nov 20, 2012 8:01 AM
15	Video-recorded class lectures	Nov 20, 2012 7:47 AM
16	None of this stuff can take the place of the human factor.	Nov 19, 2012 8:41 PM
17	physical routers and servers	Nov 19, 2012 8:32 PM
18	ldk	Nov 19, 2012 6:19 PM
19	I'm happy with what I have .	Nov 19, 2012 1:55 PM

Page 2, Q21. Outside of classes, how do you communicate with your teachers? Please select your top three methods of communications.

1	I have only used email. I don't even know what my teachers look like. lol	Dec 6, 2012 8:01 AM
2	Titans Web Mail	Dec 4, 2012 4:27 PM
3	PREFER FACE TO FACE.	Nov 20, 2012 9:07 AM
4	Text	Nov 19, 2012 3:54 PM

Page 2, Q23. What recommendations would you give to your teachers to better use technology in the classroom at Brevard Community College?

1	Stop using the DOCX format. Demonstrate how to set up virtual machines for teaching programming and testing. Minimize use of proprietary software for classwork.	Feb 11, 2013 9:59 AM
2	To have clear & consistent communication in class & through Angel.	Jan 10, 2013 8:34 AM
3	Supply backup printouts of the media used so as to provide a hard copy backup for study material for people without access to because of work or time constraints.	Dec 23, 2012 2:15 PM
4	no complaints	Dec 17, 2012 2:36 PM
5	none	Dec 16, 2012 9:26 AM
6	I think al teachers should be required to use Angel, it is a very useful tool. Speech teachers would benefit from necklace type microphones, to enhance audio/video recording. However I find most classes very well equipped.	Dec 14, 2012 5:42 PM
7	To use youtube videos more	Dec 13, 2012 7:24 PM
8	I would recommend that BCC allow there students to use formula sheets in there classes. They object is to teach the student to understand and use the formulas and not to be required to remember them.	Dec 13, 2012 3:15 PM
9	All on-line, math teachers should be required to use all available mediums as tools for their students to learn. I have taken several on-line math courses and the amount of technology used by the teachers is directly affected in my grade. Math is difficult to learn on-line and the teachers need to have many different tools available for students to use.	Dec 13, 2012 2:50 PM
10	over all, my teachers are good with technology usage.	Dec 13, 2012 5:29 AM
11	It would be helpful for myself doing class work in Afghanistan to be able to download the lecture instead of streaming. The internet is terrible out here and I can not watch the lectures.	Dec 13, 2012 3:12 AM
12	iPads	Dec 12, 2012 6:19 PM
13	nothing	Dec 12, 2012 2:11 PM
14	More videos to write papers on.	Dec 12, 2012 1:17 PM
15	N/A	Dec 11, 2012 5:49 PM
16	Maybe a classroom assignment that strictly deals with using computers or some form of techonology to complete an assignment.	Dec 11, 2012 5:04 PM
17	Show teachers and encourage them to use a wider range of technologies.	Dec 11, 2012 4:22 PM
18	i don't know	Dec 11, 2012 2:51 PM
19	its what ever just teach me the best you know how	Dec 11, 2012 11:03 AM

Page 2, Q23. What recommendations would you give to your teachers to better use technology in the classroom at Brevard Community College?

20	Learn more about how to use it.	Dec 11, 2012 9:31 AM
21	Learn how to use the technology, then make assignments around technology, you will get great results!!	Dec 10, 2012 5:09 PM
22	Learn how to better use Angel.	Dec 10, 2012 2:24 PM
23	If the technology was more updated, the teachers might know how to use it.	Dec 10, 2012 1:03 PM
24	Have a better graph, clear graph of what our grades for individual assignments are.	Dec 10, 2012 12:01 PM
25	Reply to e-mails faster.	Dec 10, 2012 11:06 AM
26	I prefer the interactive whiteboards as apposed to the projector and pull down screen. I like to be able to touch and show off my powerpoints and such with out using the keyboard on the computer.	Dec 10, 2012 7:30 AM
27	it will help the students out in the long run by teaching them to learn a different way.	Dec 10, 2012 7:10 AM
28	I think the teachers use what they have well. I think the prob;em isn't the teachers not using technology as much as it is they don't have the technology to use.	Dec 10, 2012 6:53 AM
29	none. I feel they all use the right tools for the class room. The rooms have what they need and my teachers use them when needed.	Dec 9, 2012 10:30 PM
30	Take time to learn how to use the technologies so you can answer any student's questions.	Dec 9, 2012 3:28 PM
31	I am still learning, and continuing in my education at Brevard Community College. I feel that the majority of my professors have used technology well, and I have learned a lot where I do not feel I need to offer any recommendations.	Dec 7, 2012 11:09 PM
32	Better hours...I had to go to FIT many times during the semester to get work done on my schedule. Also add more bandwidth to PB campus. Internet is VERY slow to the point where YouTube videos could not be used easily by faculty as part of lecture or by students as part of presentations.	Dec 7, 2012 1:34 PM
33	Both my humanities and spanish insturctor used technology correctly. Every one in class was okay with the instructor's techonology use	Dec 6, 2012 9:43 PM
34	No recommendations.	Dec 6, 2012 3:04 PM
35	I'm sure it's a complex tool to set up and keep updated and I've heard the email function doesn't always work properly but it would help the students greatly if more teachers used more of the functionality of Angel for communications, grade updates, and even in-class quizzes and tests. The classes that I've taken where the teachers fully used the functionality of Angel are some of the best classes I've had at BCC. One teacher even went so far as to video her classes and that was a defining reason why I got an A in her class (thank you Prof. Kenner). Maybe the support and engineering staff need to work more closely with the	Dec 6, 2012 12:34 PM

Page 2, Q23. What recommendations would you give to your teachers to better use technology in the classroom at Brevard Community College?

professors to find out what works for them, what doesn't, what can be improved and what may need to be redesigned to better help them help their students.

36 Where to begin? Get rid of the books, I can't believe I had to buy 600 dollars worth of paper books in the internet age! That's ridiculous! Put this stuff online, put interactive learning exercises in it, and you'll hardly need teachers at all. Make it more interactive . The websites that you use to get a ticket off of your drivers license are more advanced than this. I am disappointed. I took a computerized math course at BCC TEN YEARS ago and it was much more advanced than these angel classes. I only had to ask my teacher ONE question throughout the course. It taught you as you went and adjusted for what you answered on each question, where at best this MathXL is just like the old way. You answer everything, THEN you find out you have been doing it wrong. DO BETTER. I would love to help design this software. I mean it. Computerized education is the future and I like it. I just wish it would get here.
norton.timothy@titans.brevardcc.edu

Dec 6, 2012 8:01 AM

37 More use of videos to enhance class material or to view when class is not meeting on scheduled day

Dec 5, 2012 2:12 PM

38 Maybe take a survey at the beginning of each class and see what technology all the students have and perhaps if there is the technology available to them, use it in class. Or have days that are in the computer lab. They are rarely full.

Dec 5, 2012 9:41 AM

39 If professors are going to state that they will use technology (recorded lectures, etc.) they should do so. Chemistry professor in Titusville said he would upload recorded lectures and didn't. He made excuses to our class that the equipment was not functioning properly. The same thing happened in our chemistry labs. Half of the computers didn't work in the Titusville Chemistry lab and students had to share equipment. All professors and instructors that advertise they are using technology should deliver what they say they will, instead of making excuses and wasting student tuition funds. Students in Biology and Anatomy & Physiology courses in Titusville receive a rich learning environment with multiple technology-rich opportunities. Most biomedical students that start to take their chemistry courses in Titusville promptly drop or leave the campus for the Cocoa chemistry courses. Cocoa's campus is much better equipped and the professors in chemistry do a great job incorporating technology to enrich student experiences. I live in Titusville and was thoroughly disappointed with my experience in the chemistry department after having such a great biology environment there. I have to drive to Cocoa now to get a quality Chemistry major educational experience.

Dec 5, 2012 8:37 AM

40 Please see #15 above.

Dec 4, 2012 7:47 PM

41 Know how to work the projector system if you intend to use it. Coming to class prepared.

Dec 4, 2012 11:14 AM

42 have more hands on exercises, online classes could include short video lectures

Dec 4, 2012 11:00 AM

43 become more familiar with using what is available.

Dec 4, 2012 4:02 AM

44 none

Dec 3, 2012 7:08 PM

Page 2, Q23. What recommendations would you give to your teachers to better use technology in the classroom at Brevard Community College?

45	I have only had very few classroom classes, but have had sufficient technologies in the classes I have.	Dec 3, 2012 6:03 PM
46	More labs for Computer Networking class as well as other classes.	Dec 3, 2012 10:50 AM
47	Use connect	Dec 3, 2012 7:39 AM
48	My instructor tries to utilize all of the resources he has been given	Dec 2, 2012 10:48 AM
49	Just read the manual... if you know how to use it, your students will take more of what you have to say in because they are not focusing on your inability....	Dec 2, 2012 7:02 AM
50	Most students are computer savvy so it's easy to communicate the in's and out's of what to do but for those that aren't maybe spend a brief moment after class catching them up on the basics.	Dec 1, 2012 9:41 AM
51	I would recommend more teachers to get more involved with using technology and those who are not well versed in technology be provided training in order to become more versatile with technology.	Dec 1, 2012 8:07 AM
52	I think my teacher does a great job using technology within her class, given the fact that it is an online class.	Dec 1, 2012 7:42 AM
53	none	Dec 1, 2012 4:18 AM
54	Learn how to use it. I understand that you're all old enough to receive the senior citizen discount at the movies, but there's still a very prominent need to keep up with the times.	Dec 1, 2012 2:14 AM
55	respond to emails quicker	Nov 30, 2012 7:06 PM
56	Teachers use resources effectively.	Nov 30, 2012 5:17 PM
57	Be creative in stimulating students interest through discussion and interaction than 100% lecture (boring)	Nov 30, 2012 1:22 AM
58	Use the web pages available with our textbooks so that we may do practice tests and use the study guides provided.	Nov 29, 2012 5:05 PM
59	Make use of Angel's calender. It would also be great if there was a way to combine all the classes calenders into one. Much easier to keep track of all classes that way.	Nov 29, 2012 4:39 PM
60	Nothing	Nov 29, 2012 11:34 AM
61	My classes are fine as they are.	Nov 28, 2012 10:46 PM
62	Not many students have a lot of money to drop on a commercial program such as MS Office, so they use something like OpenOffice instead. The teachers I've had don't seem to know or have any interest in these types of programs, creating a disconnection between the teachers and students, to the point that some professors can't even open documents or presentations the students submit. While OpenOffice's support for the MS Office formats is growing, MS Office's	Nov 28, 2012 2:21 PM

Page 2, Q23. What recommendations would you give to your teachers to better use technology in the classroom at Brevard Community College?

	support for the OpenOffice formats (open document formats) remains half-baked and error-prone. My recommendation would be to get professors familiar with OpenOffice and programs like it, as they offer a free alternative to the sometimes very costly mainstream applications.	
63	Please put wireless internet in building 9! It is an art building and a lack of internet prevents students from locating source materials, images and other information. Hindered my current course.	Nov 28, 2012 1:06 PM
64	n/a	Nov 28, 2012 12:17 PM
65	On-line audio/video technical training courses with actual audio instructions can be very useful/helpful for learning the course material better/faster, in addition to course textbooks, - for CPAS degree courses.	Nov 28, 2012 11:51 AM
66	Know how to use the equipment provided in the classroom adequately.	Nov 28, 2012 5:47 AM
67	I am not in a position to make that determination as my classes are all eclasses	Nov 27, 2012 8:37 PM
68	None of my teachers have had a problem with using their technology, The school system should definitely replace Angel, though. It crashes on me all the time.	Nov 27, 2012 8:11 PM
69	Good use of technology already but perhaps a sample of spreadsheets, or developing a certain plan as applicable for course.	Nov 27, 2012 6:05 PM
70	Since I can't drive from one end of Brevard county to the other during the day and I have in residence class twice a week, I'd like to be able to video chat with my instructor.	Nov 27, 2012 3:01 PM
71	This class was good, very informative.	Nov 27, 2012 1:05 PM
72	.	Nov 27, 2012 12:38 PM
73	Just to be aware of the tools that are in the classroom and the ability to operate each of the tools on a demand basis.	Nov 27, 2012 11:53 AM
74	Video lecture instead of audio	Nov 27, 2012 11:22 AM
75	na	Nov 27, 2012 11:03 AM
76	There needs to be a requirement for classes that require students to use computers in class that they are proficient in how to use them and that the pre-required classes are teaching what is requires. Also, to make sure that computers and printers are set up to work. The past 2 semesters, the printers do not work when we need them.	Nov 27, 2012 10:27 AM
77	To stay up-to-date with technology as it changes as students learn the new technology and expect an instructor to be able to use it as well.	Nov 27, 2012 10:14 AM
78	More use of ebooks and per-recorded lectures would be beneficial. I also took a math course last semester that was poorly translated from the professor's physical to digital classroom. This poor translation made the class much harder	Nov 27, 2012 9:58 AM

Page 2, Q23. What recommendations would you give to your teachers to better use technology in the classroom at Brevard Community College?

as she did not use the same method for homework as for testing and thus created great confusion. IE if the HW is in MathXL then so should be the tests. This is how it was in a different math class and it was much smoother.

79	to provide us with online learning material that does NOT require flash players so iphones and ipads can fully operate with the lessons	Nov 26, 2012 9:30 PM
80	I would like the technology use at BCC to become more standardized within departments. Currently there is no continuity with some teachers using ANGEL heavily while others only use it for the gradebook, attendance, and to post the class syllabus. I think ANGEL as a piece of software is substandard and that all classes, but especially online classes, should function more like what is found on coursera.org. I would also like to see more overall digital course content available and that content be easier to search. One of the main problems with angel is there is no search functionality, or if it exists it is horribly ineffective. The whole application looks like it was written for the internet back in 2003. It still fails to recognize google chrome, which is now the most widely used browser on the internet with over 34% market share and growing. Video content would be especially nice, provided it is high quality. I would encourage teachers to put everything they do in their course on ANGEL or according LMS. I would encourage the libraries to invest in their search technology and make searching for scholarly articles in databases as easy as searching google or bing.	Nov 26, 2012 7:41 PM
81	Learn how to use them and incorporate them in the lecture.	Nov 26, 2012 3:29 PM
82	maybe take a crash course in it so there are hiccups along the way that could be avoided in the first place	Nov 26, 2012 2:41 PM
83	to actually use it.	Nov 26, 2012 1:22 PM
84	I find Angel to be a vital tool at BCC. All but one of my teachers use it. I would really like for all my teachers to use it.	Nov 26, 2012 4:59 AM
85	i haven't meet a teacher who doesn't know how to use the technologies in class. in this case if there are teacher who doesn't know how to use them best bet is to send them to a seminars to get them familiar with the equipment.	Nov 25, 2012 9:23 PM
86	no comment	Nov 25, 2012 6:56 AM
87	The only thing I would say is take time to learn the equipment prior to the start of the term. Don't wait until the term starts and just wing it or have a student do it for you.	Nov 24, 2012 8:43 PM
88	Use the technology right now my teachers do not use any.	Nov 24, 2012 7:16 PM
89	My biggest recommendation is that teachers teaching a "Computer" or technology class should be knowledgable with computers. My experiance so far has been the opposite.	Nov 24, 2012 4:22 PM
90	I already use technology to learn. BCC is doing a good job of integrating technology in their classroom environments. Kudos.	Nov 24, 2012 11:21 AM
91	Angel could be more full utilized. It also tends to be a little over-complicated.	Nov 24, 2012 9:26 AM

Page 2, Q23. What recommendations would you give to your teachers to better use technology in the classroom at Brevard Community College?

92	To use Angel for grade updates, this helps with which areas to concentrate on for Mid Term and Final tests.	Nov 24, 2012 7:31 AM
93	Not taking any classes at this time to make a comment on this question.	Nov 24, 2012 6:14 AM
94	All the teachers need to use the technological resources that are currently available. As an example, Angel for communicating with students and posting grades.	Nov 23, 2012 11:55 AM
95	For some reason I see a reduction in the use of the discussion boards in Angel...very useful especially when it becomes an interactive discussion tool and debate ensues.	Nov 23, 2012 11:09 AM
96	Online practice questions.	Nov 21, 2012 11:57 PM
97	Do not use any technology, the technology makes learning harder.	Nov 21, 2012 11:48 AM
98	The wireless internet at the Palm Bay Campus is not good. It is very slow and sometimes will not connect to certain sites.	Nov 21, 2012 9:15 AM
99	n/a	Nov 21, 2012 8:01 AM
100	My teachers are very good with using technology in the classroom.	Nov 21, 2012 6:35 AM
101	Some teachers do not use angel at all, "they did not receive training." I honestly think it is the teachers choice not to use the system because we are in a technology based field of study. It makes it hard to check on grades, attendance and assignments.	Nov 21, 2012 4:03 AM
102	It has been my experience that some teachers do not like to use the full functionality of Angel. This should be addressed by surveying the teachers and getting input to what they don't understand, and would like to have better explained through faculty training sessions.	Nov 21, 2012 1:46 AM
103	Most technology teachers teach you real-world skills that could help in the job field that students are pursueing. Although one recommendation that I had trouble with is more hands-on work, where the teachers (mainly when using a program) acually shows students how to use the program used during class.	Nov 20, 2012 3:30 PM
104	Use tablet computers.	Nov 20, 2012 3:16 PM
105	Learn how to use the whiteboard please.Use PowerPoint more often. Put assignments in writing on the whiteboard and in "Angel"	Nov 20, 2012 2:22 PM
106	I would love to see the classes video taped so we can view what we missed on that day.	Nov 20, 2012 1:04 PM
107	All the teachers I have had have used the technology available to them with excellence.	Nov 20, 2012 12:45 PM
108	I do not have any recommendations the teachers have enough technology in the class rooms already.	Nov 20, 2012 11:26 AM

Page 2, Q23. What recommendations would you give to your teachers to better use technology in the classroom at Brevard Community College?

109	I wish that teachers knew more about the technology available instead of just ignoring it and using a whiteboard instead.	Nov 20, 2012 10:40 AM
110	I feel the teachers use the technology given well. It would help if that technology would work (during a given semester the computer was down probably 3 or 4 times).	Nov 20, 2012 10:38 AM
111	They need to know how to use Angel better.	Nov 20, 2012 10:24 AM
112	HOW ABOUT TALKING TO THOSE INSTRUCTORS WHO TEACH PHOTOGRAPHY WITH A DIGITAL CAMERA AND DON'T TEACH THEIR STUDENTS ANY PHOTOSHOP OR HOW TO MOUNT A PHOTO. WE HAVE SOME OF THOSE STUDENTS IN MARILYN COOK'S ADVANCED DIGITAL PHOTOGRAPHY CLASS AND THEY KNOW NOTHING. IT'S HARD FOR HER TO CATCH THEM UP AND WE HAVE TO WAIT FOR HER TO DO IT. NOT FAIR! THOSE STUDENTS SHOULD HAVE A TEACHER WHO TEACHES THE PRE-REQS FOR AN ADVANCED CLASS! I BELIEVE THIS HAS BEEN GOING ON FOR SOME TIME. WHY?	Nov 20, 2012 9:07 AM
113	A higher tech class should not be slipped in for a standard learning class(face to face). Instructor should not rely on tech to teach the lessons in difficult areas i.e. math.	Nov 20, 2012 8:01 AM
114	Be familiar with and ready to use the technology before the semester begins.	Nov 20, 2012 7:57 AM
115	None	Nov 20, 2012 7:36 AM
116	It is alot easier if all the teachers were on the same page. Not all teachers use the angel for their classwork, and it makes it confusing. Angel really helps keep a student organized.	Nov 20, 2012 7:34 AM
117	Nine at the moment	Nov 20, 2012 7:04 AM
118	Look for innovative ways to incorporate more technology into lessons.	Nov 20, 2012 6:52 AM
119	Doing great. Keep up the good work!	Nov 20, 2012 6:02 AM
120	In the drafting labs duel 24" monitors	Nov 20, 2012 5:05 AM
121	N/A	Nov 20, 2012 12:29 AM
122	Have computers in classrooms to follow along with teacher.	Nov 19, 2012 9:09 PM
123	Don't do it!	Nov 19, 2012 8:41 PM
124	To provide and show students more educational videos in class rather than suggesting it to students.	Nov 19, 2012 8:25 PM
125	Better hours for the computer labs and library.	Nov 19, 2012 8:12 PM
126	The answer to this question can change depending on who's the teacher.	Nov 19, 2012 7:55 PM
127	more Macs!	Nov 19, 2012 7:40 PM

Page 2, Q23. What recommendations would you give to your teachers to better use technology in the classroom at Brevard Community College?

128	Nothing.	Nov 19, 2012 6:58 PM
129	You can record special sessions for students who have trouble in their classes.	Nov 19, 2012 6:56 PM
130	None.	Nov 19, 2012 6:48 PM
131	Explain The work Better	Nov 19, 2012 6:19 PM
132	Be more open to it, and know that some students may learn better with technology and some may learn better without it, so don't teach just one single way. :)	Nov 19, 2012 5:55 PM
133	none at this time	Nov 19, 2012 5:52 PM
134	none	Nov 19, 2012 5:44 PM
135	learn how to use a computer, particularly how to ensure that the sound is coming from the speakers, it's really annoying when the professor can't "get the sound to work" because it's muted or too low in any of the several layers of volume control. Also, in question #13, google apps are not open source, they are very much closed source, you should include another category for web apps such as google apps, prezi, or office online	Nov 19, 2012 5:36 PM
136	None, really.	Nov 19, 2012 4:45 PM
137	Get ALL of the teachers/instructors on-board with the use of the technology aids!	Nov 19, 2012 4:38 PM
138	make it accessible for all students and update it with current relevant information!	Nov 19, 2012 4:29 PM
139	All my teachers have done nicely with all the technology that is needed for class.	Nov 19, 2012 4:17 PM
140	Please be proactive in acclimating yourselves to the technology at our disposal. The results are worthwhile!	Nov 19, 2012 4:14 PM
141	make the students use different forms of technology so they can become well rounded on the computer.	Nov 19, 2012 1:58 PM
142	None . They seem to know what they're doing	Nov 19, 2012 1:55 PM
143	All teacher's should use Angel to keep their students updated about grades and assignments. Only two out of my four teachers use Angel.	Nov 19, 2012 1:38 PM
144	The conviencice of letting them know I can get the equipment working for them.	Nov 19, 2012 1:15 PM
145	Please don't use clickers. Those things are a waste of time. Our classes aren't large enough to utilize them effectively.	Nov 19, 2012 1:08 PM
146	not for teachers, but using our \$10 fee to actually get wifi in the whole campus instead of just the library	Nov 19, 2012 12:28 PM
147	not sure	Nov 19, 2012 12:15 PM
148	Learn!	Nov 19, 2012 11:57 AM

Page 2, Q23. What recommendations would you give to your teachers to better use technology in the classroom at Brevard Community College?

149	What ever BCC does, it needs to be simple and of very minor financial impact.	Nov 19, 2012 11:53 AM
150	To have resource material uploaded on ANGEL for class assignments, as well as a syllabus uploaded for informational purposes.	Nov 19, 2012 11:48 AM
151	Be more open to learning new technology. All teachers should post lecture notes online, and allow use of tablets and laptops in the classroom.	Nov 19, 2012 11:17 AM
152	My teachers use technology fine in the class rooms. I would not change much.	Nov 19, 2012 10:54 AM
153	Just to embrace the technology that is there, and will be there in the future.	Nov 19, 2012 10:37 AM
154	Some of my teachers say they can't use whiteboards because they don't have proper training or the whiteboard isn't working.	Nov 19, 2012 10:25 AM
155	I don't need to recommend to my teachers on computer technology. I use the computer Lab once a week for Prep Writing 2 and Prep Reading 2 to do our assignments we discuss that day to complete and also ACE Testing on chapters also.	Nov 19, 2012 10:01 AM
156	Study	Nov 19, 2012 9:36 AM
157	A computer lab to allow students access to physically use equipment they are learning about in an interactive hands on enviroment	Nov 19, 2012 9:10 AM
158	Angel is really a great tool; some teachers know that and use it to it's full potential, others refuse to learn to the detriment of their students. Figure it out or ask someone; that's what you expect of us...and we pay you.	Nov 19, 2012 9:04 AM
159	Use the latest technologies	Nov 19, 2012 9:01 AM
