Mr. Pete Newman, Director, UCF Facilities Planning, reported on the UCF Master Plan, which includes building projections for FY 2005-2050. He reported that the university has undergone significant growth during his 19 year tenure, from approximately 14,000 students to the current enrollment of approximately 46,000 students, which makes UCF the eighth largest university in the United States. He further reported that the university’s primary mission is teaching and research, but that conservation efforts are a major focus when making expansion decisions. Mr. Newman stated the Master Plan projects growth to serve a student population of 52,000, which should be accomplished in 10-12 years, at which time the focus will move to renovations and remodeling.

Mr. Newman reported on ongoing construction projects, which include a Sports Complex, Student Health Center, Harris Corporation Engineering Building, Psychology Building, Student Union utilizing a “green roof” that is expected to extend the roof life to 50 years, and a 10,000 seat Convocation Center. He also stated the university is seeking approval to construct a new athletic stadium and a Medical School to be located at Lake Nona.

Mr. Newman reported that most construction has been funded by PECO funds and bond financing.
